

We introduce our services and solutions

Socar Polymer

SOCAR Polymer was founded on July 16, 2013 in order to reinforce the development of the chemical industry of the country. The company's production facilities consisting of Polypropylene (PP) and High Density Polyethylene (HDPE) plants are located within the territory of the Sumgayit Chemical Industrial Park (SCIP). With 184 and 120 KTA of production capacity respectively, the PP and HDPE plants were put into operations in July 2018 and February 2019, respectively. SOCAR Polymer's Polypropylene and High-Density Polyethylene plants are the first of their kind in Azerbaijan, enabling the growth of the domestic petrochemical industry through development of production for this segment of the plastics market.

Socar Polymer Azerbaijan

Telecom Invest provided the Socar Polymer with Motorola Solutions products and services. Simultaneously, Training the people in need of Motorola Solutions equipment and the way of using the high technologies also was carried out by Telecom Invest .
